## A Few Joyce Words

The election is over. Holidays are ahead. Thanksgiving passed and we are looking forward to Christmas. While both holidays used to be time for family gatherings, many of us live too far apart to get together. Most of us have learned that large family gatherings have become smaller ones. Since we are a political organization, let's turn our attention to that subject. If you missed the November meeting of our organization, you missed a good analysis of the election returns from the state election results. In January, the same presenter, Jacob Middleton, will present an analysis of local legislative results.

Gene Marck recently reported that only 44% of registered voters in Bexar County voted in the November general election. Will we never learn the importance of Voting? While we have no percentage of their voting, it seems the percentage of young voters casting their vote in November was only a small number of 18-20 year olds. It is obvious that all political organizations need to organize active training sessions to train our young eligible voters in the importance of exercising this most important right in 2024.

On a more personal note, since I will be 93 in April, I believe it is now time for me to step aside, and let younger members take over this effort. I count the organizing and development of this organization to have been one of the most important efforts of the last 30 years of my life.
